About this product

The Waaree Neo 30W LED Flood Light delivers powerful, energy-efficient illumination for residential, commercial, and industrial spaces. Featuring durable aluminium construction and IP65-rated dust and water protection, it is ideal for outdoor applications, offering reliable performance and long-lasting brightness.

Designed for versatility and dependable operation, this flood light is perfect for illuminating gardens, driveways, building exteriors, parking areas, and entrances. Its efficient LED technology combines excellent visibility with reduced energy consumption, making it a practical lighting solution for everyday use.
